COMMISSION EXHIBIT 1033-A

1. We would charge for our services on the case basis as a matter of course - depend-
ing on the job. With that caveat, however, we could find an agreement for a percentage of savings
to the person - but making the agreement one or for our service of bringing his business
into the state to be paid. In finding jobs, we can charge a percentage of the first month's
income.

2. Imagine, too, could find individual cases or corporate cases. Concentrate on the
little guy and little business that can't afford the big-time PE people.

3. Working the same deal would be Bernie Weissman, Larry Schmitt, Ken Clark, Dale
Davenport and the Vernonia. As I have suggested, we could give all of us full time. We
who could be the secretary/secretaries. We could have a good office space for \$100 a
month. Vernonia can be bought independently - on time. Vernonia would be more than
\$25 a month. Vernonia would be \$20.00. Vernonia for manager \$15 a week to start,
\$20 a week to secretary/secretaries.

10. The above is just a brief sketch. I am too lazy to go into full detail in a letter.
Fill in the gaps when you get time. This sort of thing can work.
