Dear John -

Well, I imagine you are thrilled at the prospect of being a father once again. I do hope it is a girl as your boy is enough. Nice, you have a place of your own. How does Margie feel about her mother and will she be close when you are out at sea? Sure, would like some pictures, especially of John Jr. and of course you and Margie. It is much better to have children close together the new baby and John Jr will be lots of company too and other. That was the trouble with Lee. After all, you boys were in your teens and didn't

went to bother tagging him along
as he was alone most of the
time. I am working at Best's
in charge of driving at a very
small salary but the commission
and P.M. count up - of course when
you are good, I have topped the
district since I started and if I
keep it up will be eligible for
the Oscar at the end of the year.
Richard of F.W. Watt is no longer with
the company. They just opened two
stores in New York, Manhattan, you would
like to earn some extra money
on Sat. and your time off.
That's about all for now. It
is very hot here but there is
no place like N.C. It seems the
people are much more friendly
than anyplace else I've been.
See Major Hells
and also Joe Jr.
Respectfully
Love Mother,
