was something heavy in the sack when she saw it, and it was the same color paper as the sack she had seen on the morning of November 22, 1963.

She was shown the original paper sack which had been found by the sixth floor window of the TSBD Building, where empty cartridge cases were found and from which the shots were apparently fired that killed President JOHN F. KENNEDY on November 22, 1963. She stated that if that original sack was previously the same color as the replica sack, that the original sack could have been the one which she saw OSWALD carrying on the morning of November 22, 1963.

The action of OSWALD walking across Westbrook Street was re-enacted by Special Agent MC NEELY, carrying the replica sack with three scraps of wood in it to simulate weight until Mr. RANDLE designated the proper path and the proper length of the sack as seen by her on November 22, 1963. The replica was shortened by folding the open top down to reach the desired length. Then, in accordance with Mrs. RANDLE's observations, Special Agent MC NEELY grasped the top of this sack with his hand, much like a right handed batter would pick up a baseball bat when approaching the plate. When the proper length of the sack was reached according to Mrs. RANDLE's estimate, it was measured and found to be 27 inches long. She demonstrated the width of the sack as it appeared to her, noting that it did have something bulky in it originally. Her designation on the replica sack was found to be 8½ inches for the width of the original package she had seen OSWALD carrying.

BUELL WESLEY FRAZIER was interviewed at his home, 2439 West Fifth Street, Irving, Texas, telephone BL 3-8965, and furnished the following information:

On November 21, 1963, sometime before noon, the exact time unrecalled to him, FRAZIER was approached by LEE OSWALD on the first floor of the Texas School Book Depository (TSBD) Building, 411 Elm Street, Dallas, Texas, where both were employed. They were standing toward the north side of the building near the stairs that lead to the basement. OSWALD asked FRAZIER if he could ride home with him that night, and FRAZIER told him he could but asked why he wanted to ride, since he usually rode home with FRAZIER on Friday nights, returning on Monday mornings. OSWALD replied that he wanted to get some curtain rods in Irving and take them to his room in Oak Cliff.

At about 4:45 PM, on November 21, 1963, FRAZIER and OSWALD departed the TSBD Building, walked to FRAZIER's car and drove to Irving. OSWALD did not have a package and was not carrying anything with him at that time. As FRAZIER recalls, OSWALD was wearing a reddish shirt and a grey jacket, waist length. Very little was said on the way home by OSWALD, and FRAZIER is unable to recall comments made by him. He let OSWALD off at 2515 West Fifth Street, Irving, Texas, where OSWALD's wife was living. He did not see OSWALD again that night.

At about 7:20 AM, November 22, 1963, FRAZIER recalls that OSWALD looked in the kitchen window at FRAZIER's home and waited outside the house until FRAZIER joined him to go to work. This was within a period of about 5 minutes from the time OSWALD first appeared.

FRAZIER went to his car, entered the left front door, while OSWALD entered the right front door, both getting into the front seat. As he started to drive out of the yard, FRAZIER glanced back and noticed a long package, light brown in color, lying on the back of the rear seat and extending from approximately the right rear door to about the center

COMMISSION EXHIBIT No. 2008—Continued

COMMISSION EXHIBIT No. 2009

of the seat. He stated that he only glanced at this package, at the time, over his shoulder and said something to OSWALD about the package, and OSWALD explained that it was curtain rods. FRAZIER then remarked to OSWALD, "Oh, yes, you said you were going to get some curtain rods yesterday."

FRAZIER designated an approximate spot on the back seat where he felt the package extended to from the right rear door and measurement by Special Agents BARDWELL, D. ODUM and GIBBON E. MC NEELY determined that this spot was 27 inches from the inside of the right rear door, indicating that FRAZIER estimates that as the length of the package.

FRAZIER stated that he and OSWALD drove to work, and he parked the car about two blocks north of the TSBD Building. OSWALD got out of the car first, and FRAZIER noticed him standing to the rear of the car at the time FRAZIER was about to get out of the front seat. As OSWALD turned to walk south toward the TSBD Building, FRAZIER observed that OSWALD had this package under his right arm, one end of the package being under his armpit and the other end apparently held with his right fingers. OSWALD then walked toward the building with his back to FRAZIER and continued in front of FRAZIER for the entire distance, possibly 200 or 300 yards. FRAZIER followed at a slower pace than OSWALD, watching some welders working on the railroad track. By the time OSWALD reached the TSBD Building, he was at least 50 feet ahead of FRAZIER, and when FRAZIER entered the building he did not see OSWALD and does not know where he went. He did not subsequently see him with the package again.

FRAZIER stated that when he saw this package under the arm of OSWALD, he reached the conclusion that the package was wrapped in a cheap, crinkly, thin paper sack, such as that provided by Five and Ten Cent Stores.

He stated that now upon reflecting upon this matter, he realizes that he reached this conclusion when he observed the package under OSWALD's arm as OSWALD was turned with his back toward him. FRAZIER indicated the approximate closest distance that OSWALD was to FRAZIER with the package under his arm, and this was found to be approximately 12 feet by Special Agent ODUM.

Special Agent ODUM placed the replica sack under his right armpit, and FRAZIER demonstrated how much of the package he could see. When this was completed to FRAZIER's satisfaction, Special Agent MC NEELY measured the part of the package visible, and it was found to measure 9" x 1".

The replica sack was made on December 1, 1963, at the TSBD Building by Special Agents ODUM and MC NEELY from 24-inch-wide wrapping paper found in the shipping area of the TSBD Building and 4-inch-wide gummed paper tape from the same area. The replica was made to the dimensions of the original which was available for reference. The original is the sack found near the sixth floor window of the TSBD Building on November 22, 1963, following the assassination of President JOHN F. KENNEDY.

FRAZIER advised after viewing the replica sack under the arm of Special Agent ODUM, that he now realizes that his conclusion that the sack was thin, crinkly paper, of the type used by Five and Ten Cent Stores, was based to a considerable extent upon the fact that the color of the sack was a very light brown as compared with the type of dark brown paper used for heavier grocery sacks. He noted that the color of the replica sack was the same color as the package which he had seen in possession of OSWALD on the morning of November 22, 1963.

FRAZIER examined the original found by the sixth floor window of the TSBD Building on November 22, 1963, and

DL 89-43/man

4

stated that if that sack was originally the color of the replica sack, it could have been the sack or package which he saw in the possession of OSWALD on the morning of November 22, 1963, but that he does not feel he is in a position to definitely state that this original is or is not the sack.

FRAZIER indicated on the replica sack the estimated width of the package in possession of OSWALD on the morning of November 22, 1963, and this was found to be an approximate width of 6 inches.

FRAZIER recalls that at some time, probably on the way to work on the morning of November 22, 1963, OSWALD told him that he would not be going to Irving, Texas, on Friday night, November 22, 1963. He could recall no other conversation by OSWALD except that on the way to work that morning, he mentioned to OSWALD that he probably had a good time playing with his children, and OSWALD said that he did.

Date December 11, 1963

1

CARL LINDSEY THOMPSON, Installer, Office Division Plant Superintendent, Southwestern Bell Telephone Company, Life Building, 311 South Alford, residence 818 South Marlboro, telephone number WH 8-3311, furnished the following information:

On November 22, 1963, ALSTON RAMSEY, one of THOMPSON's supervisors, telephoned about 10:00 p.m., and requested THOMPSON to go to the Central Police Department as they needed someone to run the circuits.

He arrived at the Central Police Department around 10:30 p.m., and reported to GILES BERRY, Supervisor, Mobile Telephone Shop. He went to the third floor radio room located in the old City Hall Building. He remained at Central Police Department until approximately 10:00 p.m., November 23, 1963. He is known to most Police Department personnel since he has been employed by Southeastern Bell for 23 years and spends a great deal of time at the City Hall Building. He does not recall being requested to identify himself during the above period.

He arrived back at the Central Police Building at 8:00 a.m., on November 24, 1963, and reported to the telephone company trailer which was parked midway between Commerce Street and Main Street on the east side of Harwood Avenue. This was the command post for the telephone company operation at the Central Police Building. He reported to BERRY and was assigned to help in the installation of additional telephones in the office of the Chief of Police. He also checked the temporary wires which were taped to the floor in the area of the office of the Chief of Police.

At around 10:30 a.m., he rode the elevator to the basement from the third floor where he was required to identify himself by an unknown officer in police uniform, by exhibiting his telephone company identification card. The officer also looked through his tool pouch. A uniformed police sergeant, name unknown, who knew THOMPSON by sight, came up and asked THOMPSON his business in the basement at which time THOMPSON advised he desired to pass through the basement to the freight elevator and then up to the fifth floor of the new City Hall Building to the telephone room. He could not cross through from the old City Hall on the upper floors
