He said he felt MOLINA's period of unemployment was brief, that he drew unemployment compensation for a brief period, and then secured work in the Credit Union of the Neuhoff Brothers Packers in Dallas.

GENE MILLER, Reporter, "Miami Herald" advised that on November 24, 1963, he was in Dallas, Texas, covering news events subsequent to the assassination of President JOHN F. KENNEDY. During the morning of November 24, 1963, he was on the third floor of the Dallas Municipal Building with other reporters and proceeded to the basement of this building to observe the transfer of prisoner LEE HARVEY OSWALD. About the time that OSWALD was removed from the elevator in the basement of the building, MILLER proceeded up the ramp and had arrived at the left side of the armored car parked there, when he heard a shot behind him. His back was to the scene and he did not observe OSWALD being shot by JACK RUBY. He said that following the shot, the police immediately sealed the area and no one was permitted to leave.

MILLER said that numerous police officers were present in the basement during the attempted transfer of OSWALD and these officers carefully examined credentials of the various members of the press. MILLER said he showed his credentials on two occasions and they were very closely scrutinized by officers. He said that, in addition, officers searched all the cars in the basement, physically searched the air conditioning ducts and rain spouts outside the building. He said he felt the security in the basement was excellent.

MILLER said he was a stranger in Dallas and had no way of knowing who was authorized to be in the basement or who was not authorized. MILLER said that as a matter of fact, RUBY had attended a press conference prior

He said he had no actual facts one way or another as to an association between OSWALD and RUBY, but it was his personal feeling that they never had previously met.

Kennedy's Car in Dallas Is Refitted for Johnson

Special to The New York Times
DETROIT, May 16—The car in which President Kennedy was assassinated, equipped with nearly a ton of bullet-proof glass and armor plating, will be shipped to Washington this week for use by President Johnson.

Owned by the Ford Motor Company and leased to the Government, the Continental has been transformed from a bubbletop convertible into a hardtop limousine with three-inch bullet-proof windows eight panels thick.

Formerly powered with a 476-horsepower engine, the car was equipped in Dearborn with a 506-horsepower engine to handle its increased weight.

The vehicle now weighs more than five tons and is believed to be one of the heaviest autos ever constructed.
