"Results of examination:

"Several brown limb hairs and brown pubic hairs, all of Caucasian origin, were found in the debris previously removed from the Q12 blanket that matched in microscopic characteristics the K10 limb hairs and K11 pubic hairs of Oswald. Accordingly, these hairs originated either from Oswald or from another Caucasian person whose limb and pubic hairs exhibit the same individual microscopic characteristics.

"No fibers were found in the Q17 and Q18 fingernail scrapings of Oswald that could be associated with the Q12 blanket.

"Specimens Q17, Q18 and K7 through K12 are being retained in the Laboratory for possible future comparison purposes.

"No hairs were found on the 6.5 millimeter Mannlicher-Carcano rifle, K1, or on the paper bag, Q10, previously submitted."
